

# OINKHUNTA

## The Idea

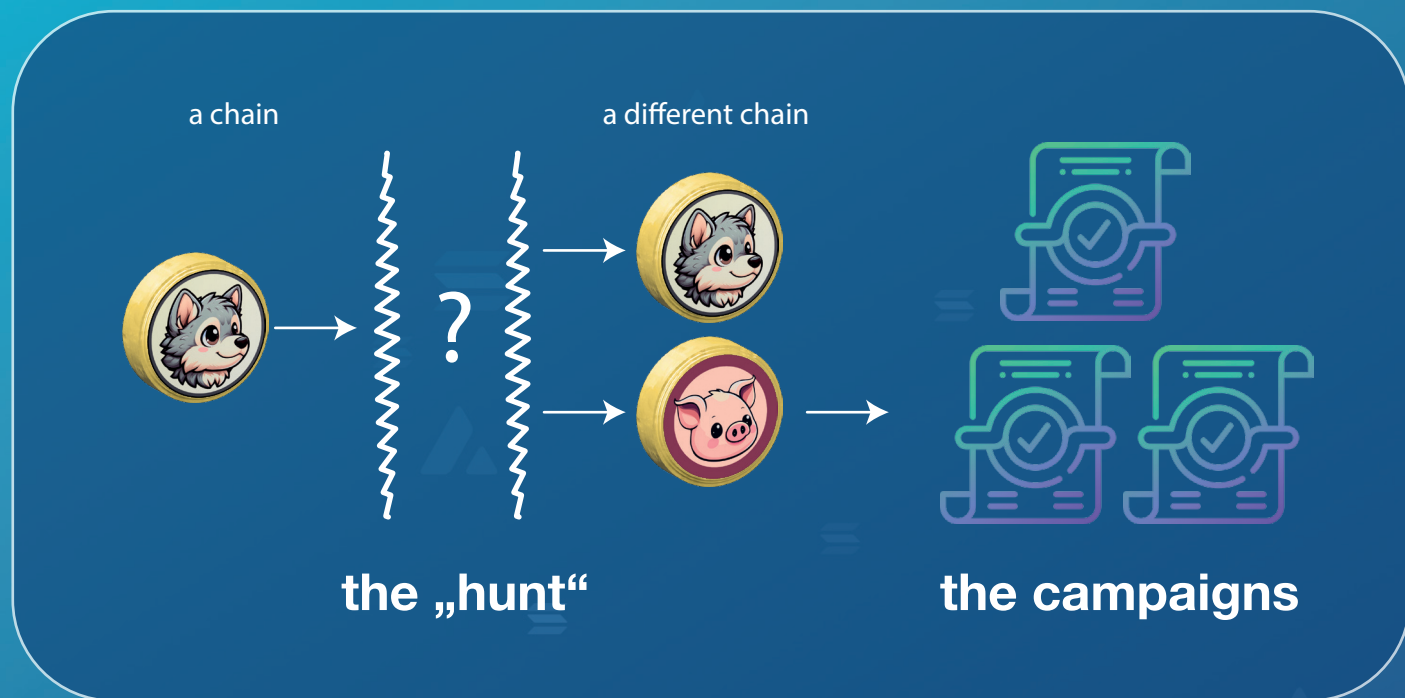

Inspired by the passionate narrative of "The Wolf of Wall Street", OINKHUNTA aims to stand as a powerful symbol of resistance against the aggressive tactics of big capital. This project was born out of a desire to create an inclusive platform for everyone to contribute and have fun.

Memecoins are often perceived as useless assets without any value. On the other hand, they have the ability to outperform a wide range of other assets. Regardless of the point of view, we believe memecoins have an important role in transforming global markets in a fun and easy way. In this wider sense, OINKHUNTA represents much more than just another memecoin:

- OINKHUNTA wants everyone to benefit from the boundless opportunities provided by multichain token technology.
- OINKHUNTA wants to establish a community founded on principles of equality, transparency, and cooperation
- OINKHUNTA has been designed with fairness and inclusive access in mind, ensuring that everyone, regardless of background or economic status, has the opportunity to grow and prosper.
- OINKHUNTA's vision is to promote multichain token standards and make them available in an easy way to everyone.

## The Mechanics

Send your wolves (OINKHUNTA / \$HUNT) through the metaphorical blockchain Forest to Find little pigs (OINK / \$OINK). Collect and store your precious \$OINK for future activities.

## The Hunt

We will kick off with a special extension of OINKHUNTA which will make the token native multichain able. The multichain functionality will kick off in the 4th quarter of 2024 and will cover an initial set of around 7 blockchains. By sending your OINKHUNTA accross chains, you get the chance to cpature a little pig (\$OINK), a special coin, which cannot be obtained in any other way. If you catch one of these rare tokens, your OINKHUNTA will emerge to a safe place where no one can cause any harm to him (... since we are burning the token). Your OINKs can be used in various ways:

- You can sell or transfer them (Although we are not gonna provide any pool for this, you are free to setup your own)
- You can collect them
- You can spend them in our campaigns (see below)
- You can exchange them back to OINKHUNTA at a multiple.

## The Campaigns

By end of 2024 we will also release a set of smart contracts and a dapp we call „campaigns“. These are factories and templates which allow you to setup dedicated campaign & marketing environments for your purposes. The campaigns will feature:

- True multichain ability: similar to OINKHUNTA and OINK, the campaigns itself will be multichain able.
- Campaign types: choose between raffles, airdrops, marketing rewards and charity
- Full control: Campaign creators will have full control over their campaigns
- Easy handling: Campaigns will make use of special gas stations which will allow you to interact with any chain with just one token for fees. No need to have several native coins in your wallets. get rid of your dust.
- OINK tokens will allow you to participate in any campaign.
- Link your campaigns on X or any other platform to get a transparent and safe administration of your marketing efforts (i.e. token drops).

## The Timeline

The projected timeline reflects our commitment to growth and widespread availability. With phased launches on various platforms and the introduction of the campaign smart contracts, we aim to create a robust and versatile platform for our community and beyond:

- **Q1 2024:** Launch OINKHUNTA on Solana.
- **Q2 2024:** Launch of final design OINKHUNTA and OINK on several EVM testnets.
- **Q3 2024:** Launch of associated campaign smart contracts.
- **Q4 2024:** Expected launch on EVM mainnets.  
Opt-In For Solana Token holders.
- **Tbd** Migration to multichain enabled OINKHUNTA on Solana.  
Launch of OINK on Solana and associated programs.

# The Tokenomics

The initial full minted supply is set at 100 trillion tokens with clearly defined specific allocations:

**Burn Reserve (20%):** Locked vault for future burn initiatives. Any other usage is not allowed.

**CEX Reserve (15%):** Locked vault for potential future CEX collaborations, with - subject to DAO approval - option to be burned. Any other usage is not allowed.

**DAO (10%):** For the further development of the project and marketing purposes. Any other usage is not allowed.

**Multichain Dev Fund (10%):** Supporting current and future developers working on multichain token solutions. Funds can only be distributed to individuals and non-profit-organizations.

**Airdrops (10%):** Reserved for various airdrop campaigns.

**Early Contributors (10%):** Recognizing support in the project's early stages through airdrops and rewards.

**Initial Liquidity and Liquidity Providers (25%):** Provided as initial liquidity on DEX.

## Disclaimer:

PLEASE READ THE ENTIRETY OF THIS "DISCLAIMER" SECTION CAREFULLY. NOTHING HEREIN CONSTITUTES LEGAL, FINANCIAL, BUSINESS OR TAX ADVICE AND YOU ARE STRONGLY ADVISED TO CONSULT YOUR OWN LEGAL, FINANCIAL, TAX OR OTHER PROFESSIONAL ADVISOR(S) BEFORE ENGAGING IN ANY ACTIVITY IN CONNECTION HEREWITH.

It is imperative to emphasize that dealing with cryptocurrencies in general inherently involves substantial risks. The market's volatility, regulatory uncertainties, and the speculative nature of cryptocurrencies make them particularly unpredictable. We strongly advise individuals to invest only what they can afford to lose, considering their risk tolerance and financial circumstances.

## Token:

OINKHUNTA tokens (the "Token") are designed to be utilized within the projects scope (the "Project"), and that is the goal of the Token distribution. It is highlighted that the Token:

- does not have any tangible or physical manifestation and does not have any intrinsic value (nor does any person make any representation or give any commitment as to its value). Its value is heavily influenced by market perception, social media trends, and community engagement;
- is non-refundable and cannot be exchanged for cash (or its equivalent value in any other digital asset) or any payment obligation by the Project or any other person;
- is not intended to represent any rights under a contract for differences or under any other contract the purpose or pretended purpose of which is to secure a profit or avoid a loss;
- is not intended to be a representation of money (including electronic money), security, commodity, bond, debt instrument, unit in a collective investment scheme or any other kind of financial instrument or investment;
- is not a loan to the Project, or any person, is not intended to represent a debt owed by the Project or any other person, and there is no expectation of profit; and
- does not provide the token holder with any ownership or other interest in the Project or any other projects as they might arise.

## Market Volatility:

The cryptocurrency market is renowned for its price volatility, and the Token are no exception. Prices can experience rapid and unpredictable fluctuations, leading to potential financial losses.

## Representations and Warranties:

By accessing the Token Whitepaper or the Website (or any part thereof), you shall be deemed to represent and warrant as follows:

- in any decision to acquire any Token, you have not relied on and shall not rely on any statement set out in the Token Whitepaper or the Website;
- you will and shall at your own expense ensure compliance with all laws, regulatory requirements and restrictions applicable to you (as the case may be);
- you acknowledge, understand and agree that the Token may have no value, there is no guarantee or representation of value or liquidity for the Token, and the Token is not an investment product nor is it intended for any speculative investment whatsoever; and
- none of the Project or the early contributors shall be responsible for or liable for the value of the Token, the transferability and/or liquidity of the Token and/or the availability of any market for the Token through third parties or otherwise.

## Final Disclaimer:

Acquiring the Token is highly speculative and involves inherent risks. Participants should carefully assess their risk tolerance and conduct thorough research before engaging in any activity. Remember, only acquire what you can afford to lose.
